

Applied Fundamental Research, LLC celebrates three-year anniversary of Value Partners Strategy

August 5, 2013 – (Cambridge, MA)—Applied Fundamental Research, LLC today celebrated the three-year anniversary of its Value Partners Strategy. Incepted in August of 2010, the Value Partners Strategy opportunistically invests long and short across the capital structures of small and medium-sized North American businesses.

Ted Wagenknecht, who has managed the Strategy since its inception, said “We are proud to have achieved this significant milestone in the life of the Strategy, which has come as a direct result of the hard work and tenacious dedication of the AFR team. We continue to build our firm with one goal in mind: to serve our investor-partners with integrity, transparency and hard work.”

About Applied Fundamental Research

Applied Fundamental Research, LLC (AFR) is a privately held investment management firm founded in 2013 and based in Cambridge, Massachusetts. The firm seeks to compound capital on behalf of high net worth individuals and families, endowments and foundations, and institutional partners in a risk averse manner. AFR utilizes a defined research methodology to benefit from identifying, analyzing and valuing fundamentally mispriced equity and credit opportunities for its investment partners.
